Online Data Backup

"A secure, monitored daily cloud backup"

Running a business is hard enough without having to worry about managing data backup for your laptops, PCs, and servers. Data backup should be the least of your worries. Our Online Backup eliminates manual backup chores without increasing infrastructure costs. Best of all, it lets you relax knowing your data are always safe and instantly retrievable.

Our Online Backup is thoroughly automated, totally secure and encrypted, and always reliable. We provide online backup services, data replication and data restoration from New Zealand data centres in Auckland and Christchurch.

Your online backup works seamlessly in the background. Once configured it quietly runs without any intervention from you giving you a regular and reliable off-site backup. We monitor your backup on a daily basis ensuring your selected files and folders are securely and correctly backed up, so you have 100% peace of mind. You can easily add more storage space as required. You can easily recover your data in the event of a system failure, theft, fire, disaster or simple data loss.

Benefits

- **Automated and scalable backup.** You can easily set the backup to automatically run at your desired time and days so you can save time and eliminates manual backup hassles.
- **Daily monitoring.** Your data is secure and fully monitored 24/7 in the Orcon datacentre located in Auckland and notifications are sent if your backup is successful or failed.
- **Fully scalable.** Eliminates hardware and IT infrastructure costs. You are only paying for what you are using and you can increase or decrease your data usage whenever you want.
- **Highest level of security.** Your data is located at Orcon datacentre in Auckland and is replicated across the datacentre in Christchurch for increase security and reliability. Data is compressed, encrypted and securely transmitted to the datacentres.
- **Instant data recovery.** You can instantly recover any files or folders that were accidentally deleted.
